

Manual Locking Parking Post

The 650MM Manual Parking Lock is designed for effective space management and security, featuring two reflective collars and an integrated key lock. Constructed from high-quality plastic material, this anti-parking manual lock pipe ensures durability and visibility. Its key features include:

Reflective Collars: Enhances visibility, especially in low-light conditions, ensuring that the parking space is clearly marked and reducing the risk of accidental collisions.

Integrated Key Lock: Provides secure locking, preventing unauthorised access to your parking space. The bollard can be easily locked and unlocked with the key.

High-Quality Plastic Material: Offers robustness and longevity, suitable for various weather conditions without corroding or deteriorating.

Foldable Design: Allows you to conveniently fold down the bollard to grant access to your vehicle. When the bollard is raised and locked, it secures your parking space effectively.

Easy Installation: Requires only bolting down to the ground, simplifying the installation process. No complex tools or procedures are needed, making it accessible for anyone to set up.

This manual parking lock is an ideal solution for reserving and securing your parking spot, preventing unauthorised vehicles from occupying it. Its user-friendly design ensures ease of use while maintaining high security standards.

Diameter: 60mm Height: 670mm

Each lock is keyed alike per post (2 keys per post).
